Why Broadridge?

Inclusive Culture: A diverse, welcoming environment where every voice is heard.

Endless Learning: Opportunities for professional growth through continuous learning and development.

Global Impact: Be part of teams that touch every corner of the globe.

Career Growth: A clear path to advance your career, with mentorship from industry leaders.

Broadridge

Key Responsibilities:

- ❑ Design, develop, test, and deploy software applications.
- ❑ Write clean and maintainable code using **C#, .NET, Java, or Python** (as per project requirements).
- ❑ Build **web applications and RESTful APIs** using frameworks like **.NET Core, ASP.NET, AngularJS (or similar)**.
- ❑ Work with **databases** (SQL Server, PostgreSQL) – write and optimize queries.
- ❑ Use **ORM tools** (Entity Framework, Hibernate, etc.) to interact with databases.
- ❑ Collaborate with QA, IT, and Product teams in the **software development lifecycle**.
- ❑ Use **DevOps tools** (Git, Jenkins, CI/CD, Docker) for automation and deployments.
- ❑ Gain exposure to **cloud platforms (AWS/Azure)**, microservices, and containerization (Kubernetes).
- ❑ Assist in debugging and troubleshooting to ensure **quality software delivery**.
- ❑ Continuously learn and apply new **technologies, frameworks, and best practices**.

What we Look For:

- **Strong foundation in programming** (C#, .NET, Java, or Python – with willingness to learn more).
- Understanding of **software engineering fundamentals, OOP, data structures, and algorithms**.
- Familiarity with **web technologies** (HTML, JavaScript, jQuery, AngularJS or any similar framework).
- Exposure to **databases** (SQL queries, understanding relational concepts).
- Awareness of **DevOps tools** (Git, Jenkins, CI/CD, Docker) and **cloud concepts (AWS/Azure)**.
- Good understanding of **coding best practices** – design patterns, debugging, testing basics.
- Strong **problem-solving, analytical, and communication skills**.
- Eagerness to learn, adapt, and grow in a collaborative team environment.
